Ljubljana, 23rd December 2021

to: **MEMBERS OF THE BSP ELECTRICITY EXCHANGE**

SUBJECT: Amendments to the Exchange Rules in the field of "Market Definitions Slovenia" and "Product Definition"

Dear Sir / Madam,

We would like to inform you that BSP Energy Exchange LL C, on the basis of Article 2.2.1.2 of the Exchange Rules, has partially changed the rules in the field of »Market Definition Slovenia« and »Products Definition«. **The new amendments will enter into force on 1 January 2022.**

In the Article 3.2.2. of "Market Definition Slovenia« two new paragraphs (3 and 4) have been added, stipulating that:

- (3) BSP shall calculate the value of a Trading Exposure for each Clearing Member individually for Slovenian Electricity Day-ahead Market and for Slovenian Electricity Intraday Market.
- (4) If individual Clearing Member submits Market Order in the Trading System for the Slovenian Electricity Day-ahead Market or in the Trading System for the Slovenian Electricity Intraday Market, the Trading Exposure will be calculated with the maximum price of Product in the case of buy order or with the minimum price of Product in the case of sell order

As a result, new sections entitled "Market Order Price "and value" 0.00 EUR " were added to the tables under Articles 3.2.2 and 3.2.3 of Product Definition

If you have additional questions regarding the above-mentioned changes to the BSP's exchange rules, we are at your disposal (trading@bsp-southpool.com).

Best regards,

Damjan Stanonik
