Data Provision Application form

By filling in an application for Data provision, you provide us with the data necessary to conclude the Data provision agreement.

Since the processing of such data is necessary for performing the service itself, the processing of this information can be carried out by the mere fact that you are entering into a contractual relationship. If you do not want to communicate these data, we cannot conclude a contract.

BSP reserves the right to request updates to the information provided in the original form to keep the risk assessment up to date.
If BSP determines that the information does not comply with the required regulations/standards, the application process may be halted.

1. General Information on the Applicant
